

DOMINIC SMITH

PHOTOGRAPHY

Natural. Authentic. Timeless.

“

We found Dominics pictures online and fell in love with them. As soon as we met Dominic, we just knew it had to be him.

*From start to finish Dominic communicated everything with us, explained all we needed to know, was always available to answer any questions we had, and made us feel completely at ease. On the day he was just incredible and **the end result was outstanding**. We honestly couldn't thank Dominic enough and will forever highly recommend him!*

One of the features of my standard package that often sets me apart is the inclusion of two photographers. This allows us to provide multiple perspectives and angles, ensuring that no emotion, glance, or smile is missed. While one photographer focuses on the main event, the other can capture candid moments, reactions, and beautiful details that often go unseen.

Beyond technical expertise, we also pride ourselves on our relaxed approach. I understand that weddings can be filled with excitement and emotion, and I aim to create an atmosphere where you can be yourself. My goal is to blend seamlessly into your day, capturing authentic moments while allowing you to enjoy every moment without feeling overly posed or staged.

With Dominic Smith Photography, you can trust that your wedding day will be beautifully documented with a relaxed approach, providing you with a collection of images that truly reflect the joy, love, and essence of your celebration.

At Dominic Smith Photography, I understand that no two weddings are the same. Your love story is as unique as you are, and your wedding day should reflect that individuality.

This photography pricelist is designed to provide you with the most booked option, showcasing the standard packages. Whilst these packages fit most people, I know that every couple has their own vision for their special day and I'm here to bring that vision to life. That's why I also offer custom photography packages tailored to your specific needs and preferences as well as our standard photography pricelist

INVESTMENT
